COLOR TECHNOLOGY

Natural Bronzer: Promotes natural dark color development with an immediate bronze glow.

- **Caramel:** Provides an immediate bronze to the skin.
- **Black Walnut:** Known for its dark color, it combines with Caramel in a tailored blend to instantly deliver deep hues and build color evenly.

Golden Mineral Glow: Illuminating minerals leave skin glistening with a golden radiance. The technology helps brighten appearance, accent bronzed skin, and diminish the appearance of fine lines.

SKINCARE TECHNOLOGY

Banana Infusion: A nutritious ingredient rich in Magnesium, Potassium, and Sugars to help restore skin's natural vitality and hydration.

- **Magnesium + Potassium:** Known to help stabilize the body's energy reserves and moisturizing factors, the blend plays a vital role in maintaining skin's integrity to re-balance and soothe.
- **Sugars:** Abundant in natural sugars that work together to help attract water to skin, keeping it hydrated and glowing.

Safflower Oil: Helps promote increased moisturization for longer lasting color.

Vitamin E: An antioxidant that works to neutralize free radicals to help prevent the appearance of fine lines and soften skin.

Vegan Formula: Cruelty free and does not contain animal products or animal derivatives.
