COLOR TECHNOLOGY

Twin Flame Technology: Brings together both tingle and warming to spark an intense sensation. Benzyl Nicotinate provides a tingling effect to the skin from increased microcirculation for lovely, dark color. Vanillyl Butyl Ether helps give a warming sensation by working to increase blood flow to the skin. Stimulate the skin and add a little bit of spice with Pink Peppercorn. This colorful berry derived from Peruvian Peppertree has excellent antioxidant properties and is known to help improve overall skin health and appearance for a rosy, blushing glow.

Truly Smitten Intensifying Complex: A blend that helps promote naturally dark color while providing skin-loving benefits. Velvet Bean works to promote deep color development with L-Dopa which acts as a precursor to melanin production, while Tyrosine helps to stimulate melanin pigment production. Carrot Seed Oil works to rejuvenate skin using polyphenols and flavonoids which help smooth texture for a youthful look.

SKINCARE TECHNOLOGY

Flawless Finish Moisture: A luxurious combination of rich Safflower and Coconut Oils, paired with creamy Shea Butter provides exquisite skin hydration, for soft and smooth skin. Enriched with moisturizing Glycerin and Vitamin E to quench skins thirst to encourage a radiant complexion.
