PRODUCT STORY— *Mystical Collection*

Follow the stars as they guide you across sandy deserts and stony mountains – nothing will keep you from your bronzed destiny! This Pure Hypoallergenic Intensifier works to gently enhance results and unlock a radiant tan. Explore the skies with Transcending Ceramide Complex as it improves moisture retention. Squalane will send you on a journey with Sheer Silicone Blend to help soften and bring balance to the skin barrier. Broaden your horizons for color that is truly Divine™!

COLOR TECHNOLOGY

Pure Hypoallergenic Intensifier: Specially curated to accelerate the tanning process and build a vibrant looking tan suitable for sensitive skin. Rosemary Oil helps achieve the blissful charm of a more intense and radiant tan because of its antioxidant properties.

SKINCARE TECHNOLOGY

Transcending Ceramide Complex: This innovative complex is specially curated to preserve angelic skin strength and is proven to establish a hydrated and polished complexion.

Delicate Squalane: Accomplish an enchanting smoothness using a natural derived ingredient designed to protect and maintain a moisture that is so heavenly. The antioxidant properties help mimic the skin's natural oils while preserving its perfecting qualities.

Sheer Silicone Blend: Experience natural bliss with a luxurious silk blend that unites an assortment of Silicones, leaving an immaculate sensation to the skin.

Chamomile Antioxidants: Enjoy the pleasure of an herb known for its calming and antioxidant properties that promotes a more balanced skin barrier.

AVAILABLE SIZES

13.5oz Bottle | .5oz Packette
