### PRODUCT STORY

Set the tone for a luminary bronze glow with JWOWW® Bronzing Primer Mist. Choose your fate with the pH Balancing formula designed to allow sunless color to complement your natural skin hues. Experience the moisture boosts your skin craves with the aid of the Hydration Complex packed with Aloe, Glycerin and Hyaluronic Acid. Don't forget your daily dose of Vitamin E & B5 for your skin, courtesy of the Vitamin Blend, which improves skin texture and elasticity. With JWOWW® Priming Body Mist you can cover all your bases in one, giving you unforgettable color!

*“Start your BRONZING journey right with a balancing and hydrating mist to prep your skin for bronzing your way and on your time! Xoxo” – JWOWW Jenni Farley*

### COLOR TECHNOLOGY

**pH Balancing:** Combines Glycerin and Panthenol, commonly known as Vitamin B, to create a naturally even, toned base. This powerful duo optimizes and enhances the skin because a balanced pH is essential to a perfect sunless session. Glycerin attracts moisture to the skin's surface, alleviating dryness, while Panthenol enhances skin elasticity and smoothness for a flawless look.

### SKINCARE TECHNOLOGY

**Hydration Complex:** Features Aloe, Glycerin, and Hyaluronic Acid to deliver superior hydration. Glycerin helps alleviate dryness, while Aloe reduces the appearance of fine lines and wrinkles. Hyaluronic Acid attracts moisture to the skin's surface, enhancing its overall complexion.

**Vitamin Blend:** Vitamin B nourishes the skin, leaving it smooth and soft with a bouncy, revitalized texture.

### HOW TO USE

To accelerate your sunless color, lightly mist all over your body just prior to Sunless or UV tanning. Let dry for 60 seconds.

### AVAILABLE SIZES

6 oz Bottle
