DHA | Dermatologically Tested | No Added Dyes | ATO Inhibitor

PRODUCT STORY

Amplify your glow and boost your UV sessions with Australian Gold's DermaDark® Color Enhancing Spray to unlock a deeper, more radiant color.

TECHNOLOGY

COLOR TECHNOLOGY

DermaDark® Bronzing Blend: Powerful natural color enhancer that helps build color gradually with daily use

Tyrosine: helps to stimulate Melanin production for a darker complexion.

DHA provide quick, streak-free color that gradually builds a beautiful tan, even without UV exposure.

SKINCARE TECHNOLOGY

- **Hydrolyzed Algin:** A conditioning agent that forms a lightweight moisture barrier to help lock in hydration and improve skin smoothness. Also supports smoother DHA color development.
- **Aloe:** This skin-soothing botanical helps leave skin feeling comfortable and refreshed.
- **Glycerin:** A powerful humectant that attracts moisture to the skin, helping maintain softness and smoothness during and after color development. Supports a more even, hydrated glow.
- **Witch Hazel:** Works to neutralize after-tan odor while refining the look of pores and minimizing excess oil for a clean, fresh, balanced complexion.

FRAGRANCE

Warm Cashmere – Black Currant, Pear Nectar, Peach, Midnight Jasmine, Amber Woods, Caramelized Patchouli, Vanilla Crème, Sandalwood & Cashmere Wood

HOW TO USE

Shake well before use. Before applying UV lotion or tan extender, hold 10 inches from body and spray in even, continuous motions. Wash hands immediately after applying.

QUICK FACT

DermaDark® Color Enhancing Spray can be used daily for continued color development even without UV exposure!
