## TECHNOLOGY

### COLOR TECHNOLOGY

**DHA Tan Extender:** Stay close-up-ready with tan-extending technology formulated with DHA and Caramel to subtly enhance and extend your golden glow. Glycerin helps lock-in moisture for an everlasting tan.

**Rice Amino Acids:** Enhance the skin's protein and amino acid levels, reacting with DHA in the epidermis to deliver deeper, more enduring color.

### SKINCARE TECHNOLOGY

- **Couture Collagen Collection:** A collection of vegan collagen alternatives strengthens the skin barrier and rejuvenate for a youthful glow.
- **Walk of Fame Silicone Blend:** Channel your stardom with this ultra-smooth complex that envelops your skin in a weightless, satin-like veil, leaving it famously soft.
- **No-Filter Moisture:** Dual moisture technology, designed to deliver soft, dewy skin. Hyaluronic Acid and Coconut Oil work together to draw in hydration, soften the appearance of fine lines, restore suppleness and plump the skin.
- **Forever Energized Complex:** Caffeine and Flower Extract energize, tone and firm the skin for a forever flawless appearance.
- **Runway Pearls:** Let the lights reflect superior shine with a shimmering pearlescent finish.
