TECHNOLOGY

COLOR TECHNOLOGY

- **Unstoppable™ Bronzing Blend:** Annatto Extract helps give a natural, warm bronze while Raspberry Extract helps enhance skin clarity for richer, deeper color.
- **Peptide Blend:** Acetyl Hexapeptide-1 supports melanin production and is known to improve the appearance of plump, firm skin after a tan develops while Palmitoyl Tripeptide-37 is known to have antioxidant properties that help improve skin rejuvenation. Allosteris is a complex that boosts the effects of the peptides, giving the skin a more hydrated and youthful appearance.

SKINCARE TECHNOLOGY

- **Ink-Drink™ Complex:** Shea Butter, enriched with Vitamins A and E are blended with Beeswax and antioxidants to deeply nourish tattoos and promote vibrant, healthy-looking skin.
- **Fierce Hydration Blend:** Formulated with Glycerin, Coconut and Safflower Oil, this powerful blend helps bind water to the skin's surface and create a protective barrier to maintain hydration, support skin renewal and deepen color.
- **Toning Complex:** Caffeine and Hemp Seed Oil helps provide toned, even skin for a more revitalized, airbrushed appearance.

FRAGRANCE

Forest Fresh – Salt Air, Orange Zest, Jasmine, Patchouli, Amber & Musk.

HOW TO USE

TO USE: This product is intended for UV tanners and/or red-light users. Generously apply the product to the skin in a circular motion before tanning to provide deeper more intense color and/or before a red-light session for intensified results. For best results, pair with a primer and extender to ensure your skin maintains its golden youthful glow. Avoid contact with eyes and delicate facial skin.

QUICK FACT

Unstoppable™ Hybrid Intensifier is great for both UV and Red-Light sessions!
